

Why Wiresnap? See PAGE 2 For More Details.

"By offering Wiresnap WiFi, we have another feature that's attracting even more business people during breakfast, lunch, midday and late day. They're able to come in and eat and enjoy a great environment, but still get a lot of work done. It's been very well received."

Deneen Nethercutt

Vice President of Marketing, Bear Rock Franchise Systems

For your customers. For your employees. For that competitive edge.

Look Around

Internet "hot spots" are popping up everywhere – coffee and sandwich shops, hotels and airports, even tire stores. Wireless internet access is helping attract loyal repeat customers to all kinds of businesses.

Now It's Your Turn

You know it's time to become part of this trend, and you've made the decision to offer wireless internet service (Wi-Fi), to your customers. Now comes the challenge: choosing the right company to make it happen.

Wiresnap Meets the Challenge

By offering a complete solution, Wiresnap is equipped to help you provide high-speed internet connectivity to your patrons and your back offices. Our standard of excellence and reliability will enable you to bring Wi-Fi to your business in a smooth, easy, and affordable manner.

"Management" Is the Key

Sure, you could go to the store and buy the hardware needed to offer wireless internet to your customers. Or you could have a friend who "knows computers" hook you up. But then who's left holding the bag? You.

Wiresnap knows you have a business to run. That's why we do much more than set up your system and put a "Wiresnap" sticker on your front door. We offer a completely managed product that includes design, hardware and software, installation, continuous security monitoring, and support. Wiresnap offers a trouble-free experience for you, your employees, and your customers.

Questions? Ready to get started? Call us at 919-859-3255

Our pledge to all customers:

Every Wiresnap WiFi location will always have a secure, managed, reliable, and fast connection to the internet.

The **WiSnap Pro**: At Wiresnap, we developed our own exclusive Wi-Fi unit that is both powerful and space-saving. The WiSnap Pro is an all-in-one router, switch and wireless access point.
